

Join us and let's build our future

The Pride Living story is about harnessing diversity and growing together to support the evolution of aged care to a consumer driven model. Together, we are committed to helping our clients develop sustainable operating models that deliver quality of life to their care recipients.

The Pride was assembled with a cross-disciplinary team of consultants covering quality, operational and strategic expertise, to give our clients the confidence to succeed.

As we deliver support to our clients, we value each member of the Pride as an integral part of the Pride Living story. We recognise that together we can support positive change to the way we care for older Australians.

WHO DO WE THINK WILL FIT IN?

We asked the team what sort of people they think will thrive at Pride Living, they said people who:

- through their skills and knowledge can create value for our clients
- respect older people, their fellow workers and Aged Care Providers
- are able to be innovative and imaginative
- embrace a collaborative approach and contribute to the Pride
- accept personal responsibility
- are self-directed, disciplined and adaptable to challenging work situations

The Pride Commitment

Sharing success

Profit share scheme that recognises individual and team contribution.

Empowering you

A culture that promotes self development and study.

Strong CSR

Each year staff decide which charities will be included in our CSR program.

Rewarding projects

Our impact on the quality of care and services for the elderly is rewarding.

WHAT OUR EMPLOYEES THINK

"The work is challenging but rewarding, and there are opportunities to widen your experience."

"At Pride Living, we have a very inclusive work environment, where you are taken seriously and heard regardless of experience level."

"I get the benefit of a strong network of managers and colleagues who support and encourage my personal development and growth."
